ABOUT ME

Software Developer with a back ground in project management in chemical plant industry. I recently graduated from Le Wagon web development bootcamp and am currently working as a freelance. My strength lies in my curiosity, which drives me to manage most of my work by learning and gaining new skills.

SKILLS

- Ruby on Rails, HTML, CSS, Sass, Javascript, React, SQL, Figma, Github, Project management

PROJECTS

Creating Photographer's Website
Photographer Ryunosuke
- Ongoing
- The most crucial aspect of this project is the DESIGN that matches with the photographer's vision. I create the design based on the photographer's initial concept, and we collaborate on refining our ideas together.

Recipe Suggestions App
LE' MAKE
- Tech stack: Ruby on rails, CSS, HTML, JavaScript, Figma, Github
- Mobile friend web app that once you submit the ingredients you have, you get the recipes using by API searching. I worked with team from Australia and my role was full stuck developer. Despite geographical challenges, I managed to collaborate well and completed this project fully online and English.

PROFESSIONAL EXPERIENCE

2021/04 – 2023/03	**Project Engineer**
	Chemical Plant Engeering company
	• After initial training, worked as a project manager on chemical plant engineer projects for external clients.
	• Enhanced organizational, team-work and communications skills working with project teams and clients.
	• Responsible for troubleshooting complex technical and project issues.
